

TROPHIES

"I wholeheartedly recommend Commercial Steel Builders and Mickey Wirth for all your building needs.

Mickey showed that he has a never-ending supply of patience while we twiddled and tweaked our building addition to be what we wanted it to be. He took the time to ensure that we were totally satisfied with every feature. He was always willing to make any changes we suggested even when they didn't work and never complained when we kept changing our minds, etc. We love the extension on our building. The transition from the existing building to the extension was amazing to watch come full circle. Looking at our building, you can't even tell it wasn't one from the beginning.

It was certainly our lucky day when we found Commercial Steel Builders."

Sincerely,

A handwritten signature in black ink that reads "Angela Locklair". The signature is fluid and cursive, with a long horizontal flourish extending to the right.
