

February 11,2008

I have purchased a 22' X 22' metal building manufactured by Rockford Manufacturing, Ltd. The building was constructed by Commercial Steel Builders, LLC (Mickey Wirth). The workmanship was superb and the building was more than I anticipated it would be. It has many possibilities as to its storage capacity. Several levels of shelves can be incorporated inside. It is a low maintenance building and very secure. Factor in the cost of renting the same amount of space and it will pay for itself in a few years.
